FOR IMMEDIATE RELEASE

RABCAT SIGNS GAMES DISTRIBUTION DEAL WITH QUICKFIRE

VIENNA - Rabcat is proud to announce to have joined QuickFire, powered by Microgaming (www.quickfiregames.co.uk), as a new development partner.

When looking for a provider to partner with, Rabcat was attracted to QuickFire's impressive position in the market, its regular stream of successful, high quality slots, and its long list of notable operator partnerships, which continues to grow.

The deal will allow Rabcat to enter into a number of new territories and benefit from QuickFire's extensive portfolio of operators and partners. In exchange for its global reach and software capabilities, QuickFire will receive access to Rabcat's exciting range of games and its creative flair. Rabcat's existing portfolio features a range of high quality video slots, including *The Legend of Olympus*[®], which won the coveted title of '2011 game of the year' on win2day.at. Rabcat is known for its artistic flair, and has provided top quality 3D art and animation for powerhouses such as Disney Interactive, Microsoft Game Studios and Rockstar Games.

Ashley Sandyford-Sykes, QuickFire Spokesperson, adds: *"We are very pleased to be partnering with Rabcat and look forward to working closely with them. By combining Rabcat's creativity with our software and global reach, we feel that we can enhance the gaming experience of players across all markets. At QuickFire, we constantly strive for better and the unparalleled entertainment we provide to players will ensure that Rabcat has the best content possible."*

Thomas Schleisnitz, Founder and CEO of Rabcat, says: *"We are very excited to be working with QuickFire. This partnership will allow us to greatly expand our capabilities and bring our range of innovative slots and games to new audiences. With its strong partnerships and experience across international markets, and its ever-increasing portfolio of excellent games, we are confident that our partnership with QuickFire will attract a lot of new players to Rabcat as well as satisfy our existing ones."*
